DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

1. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by DeFrees-Parrott et al. (US Pub. 2001/0036855).

Providing a game machine configured to enable a player to play a game whose outcome is based on chance in exchange for a wager (figure 1) and further comprising a printer operable disposed therein, providing a lottery ticket purchasing pool in the game machine, funding the lottery ticket purchasing pool on an incrementally increasing basis, issuing a lottery ticket from the printer when the lottery ticket purchasing pool reaches a predetermined value and when a game play finishes, in which the examiner interprets the predetermined conditions in paragraphs 0041-0043 and 0095-0097 to be an equivalent to the providing a lottery

ticket purchasing pool in the game machine, funding the lottery ticket purchasing pool on an incrementally increasing basis, issuing a lottery ticket from the printer when the lottery ticket purchasing pool reaches a predetermined value and when a game play finishes (summary, figures 1-3 and paragraphs 0093-0097) as recited in claim 1.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Okuniewicz (US Pub. 2003/0181236) discloses lottery and gaming device interface for a gambling game.
